A 2x2 grid with red lines. The grid is composed of four squares arranged in two rows and two columns. The lines are red and intersect at the center of the grid.A square divided into four equal quadrants by a horizontal red line and a vertical red line. The top-left quadrant is shaded light blue, the top-right is light green, the bottom-left is light orange, and the bottom-right is light pink.A square divided into four equal quadrants by a horizontal red line and a vertical red line.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.A square divided into four equal quadrants by a horizontal red line and a vertical red line. The quadrants are empty.A square divided into four equal quadrants by a horizontal red line and a vertical red line. The lines intersect at the center of the square.A square divided into four equal quadrants by a horizontal red line and a vertical red line. The lines intersect at the center of the square.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by a black border on the top, left, and right sides, and a red line on the bottom side. The grid is divided into four quadrants by a red vertical line and a red horizontal line.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by a black border on the top, left, and right sides, and a red line on the bottom side. The grid is also divided by a red line on the left side and a red line on the top side.

A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is empty. The top-right square contains a small red dot in the center. The bottom-left square contains a small red dot in the center. The bottom-right square contains a small red dot in the center.

A square divided into four equal quadrants by a horizontal red line and a vertical red line. The quadrants are empty.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.A 2x2 grid with red lines. The grid is composed of four squares. The top-left square is white. The top-right square is white. The bottom-left square is white. The bottom-right square is white. The grid is defined by red lines.
